STUDENT ALERT

INDOOR AND OUTDOOR CAMPUS SECURITY WARNING

What is the quickest, most effective way for warning the public of man-made or natural events such as tornado, flash flood, severe weather, campus safety issue or chemical release?

The most effective way for warning the public is to issue a tone and follow it with clear, intelligible voice instructions. Whelen's three step approach, **"A.I.D"**...**ALERT, INFORM & DIRECT** will eliminate confusion, restore order and most importantly, save lives.

- Alert with tone, communicate with voice messages
- Multi-Lingual message capability
- Battery operated - when power goes out our products are still operational
- The same warning capability indoors and outdoors
- All mass notification products can be zoned for warning capabilities exactly where you need them
- Alert monitors for special applications
- Visual warning strobe and led beacons for hearing-impaired
- Base station activation equipment

Type II Electronic Cabinet

WPS2905

INDOOR AND OUTDOOR CAMPUS SECURITY WARNING

PRODUCT FEATURES

- A diverse college campus is comprised of many outdoor and indoor areas that require a means to warn students, faculty, and visitors. The most effective way to do this is to issue a warning tone, followed by a clear, intelligible voice message with instructions, **ALERT, INFORM & DIRECT.**
- Tone-only sirens fail to inform. The diverse populace of a college campus will not know what to do without the ability to inform.
- Whelen's pre-recorded voice message capability is unmatched. Distortion-free voice messages, pre-recorded at the factory, in studio-like conditions; optimized for power and clarity.
- Voice messages as well as musical renditions of various lengths can be recorded in digitally formatted audio for crystal clear reproduction and intelligibility.
- Digital voice recordings in multiple languages.
- Instant communication with portions of the campus or all-campus alerting, indoors and out.
- Live public address. Deliver critical communication specific to the event with the use of a microphone at the emergency operations center.

- Every campus is different. A mass notification warning system can be customized to meet your needs.
- Whelen's approach to warning the public is serious business. We will not compromise on quality. Unlike any other warning system manufacturer, Whelen products are designed, pre-assembled, pre-wired and tested at our facility to ensure product quality and reliability.
- Contact us. We will put you in touch with our team of professional representatives, experienced in acoustic surveys and system planning.

OUTDOOR WARNING

- WPS2900 Series
- Omni-directional
- Voice capable
- 6 distinct tones standard
- Aesthetic, aero-dynamic intended to blend into a campus background

Standard equipment includes speaker assembly and electronics cabinets.

Options include:

- Radio activation controls
- Paging interface to interface with an existing public address system
- Intrusion alarm
- Digital voice
- Microphone

- Solar power

OTHER MASS NOTIFICATION PRODUCTS & OPTIONS FOR CAMPUS SECURITY

INDOOR WARNING

IPS400/800

- Indoor tone and voice alerting system
- Same functionality as our outdoor system
- Warning tones and pre-recorded voice or public address available in multiple languages
- Tones and voice warning are distributed to individual speakers within a building
- Interface with current existing intercom / public address system
- Interface with outdoor Whelen system

IPS 400/800 Type I Electronic Cabinet

VISUAL WARNING PRODUCTS

As with any community, a college campus has a population of hearing-impaired individuals. The following products aid in warning those individuals through a visual signal that can be operated in conjunction with the audible products.

L32LRF4

- Red Super-LED® low dome beacon (single color only) top mount option, 24VDC

Visu-Alert™

- Omni-Directional visual warning option for all 2900 Series Systems

L31HRF4

- Red Super-LED® high dome beacon (single color only) top mount option, 24VDC

OTHER MASS NOTIFICATION PRODUCTS & OPTIONS FOR CAMPUS SECURITY

OTHER OPTIONS

RTM - Roof mount and **SBC280** solar power options.

WPS2903 with both RTM Roof mount and **SBC280** Solar Power Installation.

Pole Top Bracket with WPS2901

SPEAKERS

WS15T - Wide-angle, 15 watt speaker

WS60T - Wide-angle, 60 watt speaker

WS15TR - Recessed mounting, 15 watt speaker

WS100TCH - (A) Wide-angle, 100 watt speaker with waterproof housing

WS30T - (B) Wide-angle, 30 watt speaker

WS100 - (C) Wide-angle, 100 watt speaker

WS15TEN - (D) Recessed mounting with grille, 15 watt speaker

WSXPL6T - (E) Explosion-proof, 60 watt speaker (contact factory for application)

All of the above speakers (except WS100 have adjustable output)

BASE STATION EQUIPMENT

Base station equipment at the heart of Whelen's mass notification warning products is fast, reliable, one-way and two-way control and status monitoring products. Whelen's COMM/STAT™ 10/14 communication protocol is used for both our one and two-way products. DTMF signalling is standard, but other formats are available.

ONE-WAY CONTROLS

E747 Encoder

- Ideal for activating small systems, activating 1-10 base units
- 12 VDC device, making it ideal for mobile applications

E969 Encoder

- For medium to large scale systems
- Includes four "call keys", designed for simple and accurate two-step activation

TWO-WAY CONTROLS

E1000 Encoder/Decoder

- Controls your warning system individually, in groups, or as a complete system
- User-programmed activation "scenarios"
- Twenty "HOT" call keys, six auxiliary call keys
- With the included computer accessory software, you can connect the E1000 to a user-supplied PC for Windows® based programming and data archiving

ALERT MONITORS

VA2000

- Provides instant information defining the emergency condition, alerting through a piercing alarm, and displaying a pre-programmed message
- Displays up to 60 messages
- Used in administration buildings, offices and classrooms
